**UNITEDHEALTHCARE PARTNERS WITH CONSUMER HEALTH SERVICES INC.
TO BETTER SERVE DR WALK-IN MEDICAL CARE PATIENTS**

~ Provides Duane Reade customers with expanded access to care and in-network coverage ~

NEW YORK, NY– April 28, 2009 – Consumer Health Services, Inc. (CHS), the premier manager of on-site physician-centric consumer health care centers, has partnered with UnitedHealthcare, one of the largest health insurers in New York State, to offer New Yorkers a lower-cost alternative to going to the emergency room for non-urgent medical care.

Through the partnership, all current and future CHS managed retail-based physician practices will be recognized as UnitedHealthcare in-network health care providers, including two of Duane Reade's DR Walk-In Medical Care locations in Manhattan that provide an alternative to higher-cost emergency room treatment.

"Walk-in medical care is a comparatively new hybrid in the field of outpatient medicine and is part of a growing trend in this country," said Dr. Maggie Bertisch, Medical Director for New York Walk-In Medical Group. "This model enables health care providers to offer more affordable alternatives to crowded ER settings by meeting patient demands of convenience and efficiency, while delivering safe, quality medical care."

Duane Reade's two DR Walk-In Medical Care sites offer New Yorkers convenient access on a walk-in basis for routine physical exams and basic treatment services, along with health screenings, medical tests and vaccinations. The on-site physicians refer patients back to their primary care physician or specialty physicians once they are treated, as they understand the importance of continuity of care and the establishment of a medical home. CHS and Duane Reade plan to expand the DR Walk-In Medical Care sites in 2009, in addition to launching partnerships with other major New York health systems.

"Duane Reade's DR Walk-In Medical Care is an innovative approach to providing New Yorkers with cost-effective and convenient access to routine primary care," said Sanford P. Cohen, Chief Medical Officer, UnitedHealthcare Northeast Region. "Their physicians' use of electronic medical records helps ensure that a patient's primary care physician is kept informed about treatment and diminishes the possibility of fragmented care or lack of follow-up."

"We understand the daily needs and fast-paced lifestyle of New Yorkers, and are pleased to offer our customers convenient and accessible top-quality health care in our DR Walk-in Medical Care centers," said Frank Scorpiniti, Senior Vice President of Pharmacy Operations for Duane Reade. "Duane Reade is the only drug store that uses the unique on-site physician model, which allows us to better serve our customers. Now through the partnership with UnitedHealthcare we can offer our services and provide a more valuable offering to a larger customer base."

DR Walk-in Medical Care sites are currently operating at the following Duane Reade locations

- 86th and Lexington: Mon. – Fri. 11 a.m. – 7 p.m.; Sat. 9 a.m. – 5 p.m.
- 50th and Broadway: Mon. – Sat. 8 a.m. – 8 p.m.; Sun. 11 a.m. – 7 p.m.
